

# THE WORLD'S ONLY TRUE OCEAN-RAISED STRIPED BASS

Fresh Pacifico Striped Bass — Whole fish and fillet

# FAMED FOR ITS VERSATILITY

Our ocean-raised **Pacifico Striped Bass** has a clean mouth feel and a semi-firm texture. The fish is ideal to cook with because the fat content allows for many preparation methods, including whole, raw, grilling, poaching, and braising. Cooked, it has a flaky texture with a skin that crisps beautifully.

**Pacifico Striped Bass Pacifico Striped Bass** are ocean-raised striped bass from the pristine marine sanctuary of Isla Todos Santos in Ensenada, Baja California Mexico, not to be confused with the hybrid species currently farmed in freshwater ponds and lakes. The meat is white with a presentable reddish-pink bloodline. This farmed true striped bass has more fat content than wild fish, providing excellent taste, beautiful appearance and texture that holds up to any type of preparation.

# THOUGHTFULLY FARMED

We manage quality at every step of the growth cycle, starting in our hatchery and then rearing the fish to market size, all within the same region.

Less handling, specially designed feed, and the natural flow of clean currents result in fish that are consistently delicious and an environment that is maintained to the level of its natural purity.

Harvested and immediately put on ice, our BAP, FDA, EU, and HACCP-certified processing plant is a short boat ride away. This results in reduced freight costs, increased shelf life and a much lower carbon footprint.

**Pacifico Striped Bass** is the world's only four-star Best Aquaculture Practices (BAP) striped bass. Four stars is the highest designation in the BAP program, signifying that all parts of the supply chain are BAP Certified: a product originates from a BAP-certified processing plant, farm, hatchery, and feed mill. We are proud to be the first operation in Mexico to obtain four-star certification for Best Aquaculture Practices. Cert. No. P10611
