

# THE WORLD'S ONLY TRUE OCEAN-RAISED STRIPED BASS

Pacifico Striped Bass — Ideal for Sushi and Sashimi

# SWEET. CLEAN. FIRM.

Pacifico Striped Bass is a highly prized fish that has become popular with master sushi chefs as a raw fish delicacy in sushi and sashimi. Made exclusively for sushi bar applications, Pacifico is proud to present a whole round fish preparation of our most premium quality striped bass.

Perfectly harvested, humanely incapacitated, bled and packaged —our most demanding customers will be reminded of the quality only experienced on the auction floor of Tsukiji fish market in Tokyo.

The meat is white with a presentable reddish-pink bloodline. This farmed true striped bass (not hybrid) has more fat content than wild fish, providing excellent taste and texture.

## THOUGHTFULLY FARMED

We manage quality at every step of the growth cycle, starting in our hatchery and then rearing the fish to market size, all within the same region in the pristine marine sanctuary of Isla Todos Santos in Ensenada, Baja California Mexico.

Less handling, specially designed feed, and the natural flow of clean currents result in fish that are consistently delicious and an environment that is maintained to the level of its natural purity.

Harvested and immediately put on ice, our BAP, FDA, EU, and HACCP-certified processing plant is a short boat ride away. This results in reduced freight costs, increased shelf life and a much lower carbon footprint.

Pacifico Striped Bass is the world's only four-star Best Aquaculture Practices (BAP) striped bass. Four stars is the highest designation in the BAP program, signifying that all parts of the supply chain are BAP Certified: a product originates from a BAP-certified processing plant, farm, hatchery, and feed mill. We are proud to be the first operation in Mexico to obtain four-star certification for Best Aquaculture Practices. Cert. No. P10611
